[] The Chinese have about 60 IL-10s which are normally based at inland airfields, but from time to time a few have appeared at coastal bases. In 1955, IL-10s were used to support an attack on a Nationalist-held offshore island but there are no current indications of preparations for such an attack.]

Bombed highway bridge, Nape area, Laos

641204 6

*North Vietnam - Laos: [Recent aerial photography of roads used to carry supplies from North Vietnam into Laos reveals that the Communists are building bypasses for bridges damaged by aerial bombing or flooding. One of these bypasses, a submerged log bridge, was photographed on 27 November near the Nape bridge on Route 8, another was photographed on Route 9 at Ban Na Kyon, and a third at Tchepone. The Nape bridge bombing took place on 21 November.]
